LITERATURE

SEE: FINCH & CO CATALOGUE NO. 15, ITEM NO. 39, FOR ANOTHER SCRIMSHAW STAYBUSK
INTENDED AS A STAY IN FRONT OF A WOMAN'S BODICE OR CORSET THESE BUSKS ARE MADE OF PAN BONE, THE LOWER
JAW OF A SPERM WHALE, WHOSE FLAT SURFACE WAS FAIRLY EASY TO INSCRIBE WHEN 'GREEN' EVEN WITH A SAILORS
JACK KNIFE. POPULAR AS LOVE TOKENS THEY WERE USUALLY 10 TO 12 INCHES LONG AND WERE INSERTED IN A
VERTICAL POCKET IN THE FRONT OF THE CORSET TO KEEP THE GARMENT FROM BUNCHING WHEN TIGHTLY LACED.
