SIZE: 28CMHIGH, 44CMWIDE - 11 INS HIGH, 17¼ INS WIDE

FIVE STUDIES BY GEORGE STRICKLAND (1760 - 1832) COMPRISING:

'POCHARD' WATERCOLOUR AND BODY COLOUR ON PAPER INSCRIBED TO REVERSE 'POCHARD' INITIALLED AND DATED

'G S 76'

SIZE: 28.5CMHIGH, 45.5CMWIDE - 11¼ INS HIGH, 18 INS WIDE

'MOOR BUZZARD' (FEMALE) INSCRIBED TO REVERSE AND 'MOOR BUZZARD' (MALE) INSCRIBED TO REVERSE WITH 'HALF SIZE' WATERCOLOUR AND GOUACHE ON PAPER

SIZE: 29CMHIGH, 45.5CMWIDE - 11½ INS HIGH, 18 INS WIDE AND 30CMHIGH, 45.5CMWIDE - 11¾ INS HIGH, 18 INS WIDE

'REDWING' INSCRIBED TO REVERSE INITIALLED AND DATED 'G S 84' WATERCOLOUR AND BODY COLOUR ON PAPER

SIZE: 32CMHIGH, 46.5CMWIDE - 12½ INS HIGH, 18¼ INS WIDE

'LOXIA THE CROFSBILL' (CROSSBILLS) INSCRIBED TO REVERSE WATERCOLOUR AND BODY COLOUR ON PAPER

SIZE: 30CMHIGH, 49CMWIDE - 11¾ INS HIGH, 19¼ INS WIDE

ALL OF THE FIVE STUDIES ARE INSCRIBED TO THE REVERSE WITH THE SIZE, WEIGHT AND SPECIES OF BIRD

### LITERATURE

SIR WILLIAM STRICKLAND AND HIS BROTHER GEORGE WERE SONS OF SIR GEORGE STRICKLAND, A YORKSHIRE AGRICULTURIST WHO INTRODUCED NEW METHODS OF CROP ROTATION AND FARM MACHINERY, AND WHO WAS ALSO A PATRON OF THE ARTIST ARTHUR DEVIS AND OF WILLIAM KENT WHO REMODELLED MUCH OF THE INTERIOR OF BOYNTON HALL, AND REMADE MANY OF THE EARLIER FIRE SURROUNDS IN THE PALADIAN STYLE DURING THE 1730'S. JOHN CARR OF YORK WAS ALSO EMPLOYED AS AN ARCHITECT AND MADE FURTHER ALTERATIONS TO THE FAMILY SEAT 1765 - 1780. WILLIAM THE ELDEST SON WAS A KEEN NATURALIST AND HONORARY MEMBER OF THE BRITISH BOARD OF AGRICULTURE. HE ESTABLISHED HIS OWN FARM AT WELBURN IN YORKSHIRE BEFORE SUCCEEDING HIS FATHER AS 6TH BARON OF BOYNTON IN 1808. HE TOURED AMERICA IN 1794 AND 1795 SKETCHING SCENIC LANDMARKS AND COLLECTING INFORMATION ON AMERICAN FARMING PRACTICES FOR THE BOARD WHICH HE LATER USED AS THE BASIS FOR A CRITICAL ASSESSMENT: 'OBSERVATIONS ON THE AGRICULTURE OF THE U.S.A' LONDON 1801. DURING HIS VISIT TO MONTICELLO IN MAY 1795 THOMAS JEFFERSON GAVE HIM DRAWINGS AND A SMALL MODEL OF HIS MOULDBOARD PLOUGH WHICH STRICKLAND PRAISED AS AN INVENTION 'FORMED UPON THE TRUEST AND MOST MECHANICAL PRINCIPAL OF ANY I HAD SEEN' THE SUBSEQUENT CORRESPONDENCE BETWEEN THEM WAS MARKED BY EXCHANGES OF PUBLICATIONS, SEEDS AND INFORMATION ON AGRICULTURE AND NATURAL HISTORY AND CONTINUED UNTIL 1805. SIR WILLIAM STRICKLAND'S DEPICTION OF THE GREAT BUSTARD IS ESPECIALLY SIGNIFICANT AS IT WAS SAID THAT THE LAST GREAT BUSTARD IN BRITAIN WAS SHOT AT BOYNTON HALL AROUND 1832. IN THE FAMILY ARCHIVES THERE IS AN INVITATION TO DINE AT BOYNTON HALL IN WHICH HE DESCRIBES THE PRINCIPAL DISH, A GREAT BUSTARD, AS PROBABLY 'THE LAST OF ITS RACE'.
