#### **LITERATURE**

RHEAS ARE THE SOUTH AMERICAN EQUIVALENTS OF THE OSTRICH AND ARE THE HEAVIEST OF THE NEW WORLD BIRDS. ALTHOUGH THEY HAVE LARGER WINGS THAN OTHER RATITES THEY ARE STILL UNABLE TO FLY, BUT THEY ARE GOOD SWIMMERS AND FAST RUNNERS. GREATER RHEAS LIVE IN FLOCKS OF BETWEEN 20 AND 30 BIRDS, MALE AND FEMALE BIRDS LOOK MUCH ALIKE. THEY FEED ON PLANTS, SEEDS AND INSECTS AND SOME SMALL ANIMALS. AT BREEDING TIME THE MALE BIRD DISPLAYS AND GATHERS TOGETHER A HAREM OF FEMALES. HE THEN LEADS HIS MATED FEMALES TO A SHALLOW NEST WHICH HE HAS PREPARED AND THEY ALL LAY THEIR EGGS IN ONE NEST MAKING A CLUTCH OF UP TO 18 EGGS IN TOTAL WHICH THE MALE THEN INCUBATES.
