LITERATURE

THE TERM 'MASSIM' IS THOUGHT TO BE A CORRUPTION OF 'MISIMA' THE NAME OF AN ISLAND IN THE LOUISIADÉ ARCHIPELAGO. AT THE END OF THE 19TH CENTURY WESTERN CHRISTIAN MISSIONARY STATIONS WERE ESTABLISHED IN THE AREA WHEN THE POPULATION NUMBERED AROUND 38,000. ALTHOUGH TOBACCO IS GROWN LOCALLY, IT IS THE BETEL NUT, THE SEED OF THE ARECA PALM WHICH IS MOST USED AS A STIMULANT. PEOPLE WITH GOOD TEETH CRUSH THE NUT IN THEIR MOUTHS WHILST THE OLDER GENERATION USE A MORTAR AND PESTLE. THE LEAF OR FRUIT OF THE BETEL PLANT, AND A LITTLE LIME TAKEN FROM A POT WITH THE AID OF A LIME SPATULA, IS ADDED TO THE CRUSHED AND CHEWED STIMULATING NUT. THE LIME IS PRODUCED BY BURNING CORAL WHICH IS THEN POWDERED AND PUT INTO BOWLS, OFTEN MADE OF COCONUT. THE MASSIM DO NOT PRACTICE ANCESTOR WORSHIP, BUT IT IS BELIEVED THAT THE HUMAN FIGURES CARVED TO THE TOP OF THE SPATULA REPRESENT SPIRITS THAT WILL PROMDE PROTECTION TO THEIR OWNER.

PROVENANCE

THE TERM 'MASSIM' IS THOUGHT TO BE A CORRUPTION OF 'MISIMA' THE NAME OF AN ISLAND IN THE LOUISIADÉ ARCHIPELAGO.
